

S&T *stay connected*

S&T
320 Kansas Ave,
Brewster, KS 67732

Jun 24, 2025

Dear S&T Customer,

At S&T, we understand that having fast and reliable internet is more important than ever, whether you're working from home, streaming your favorite shows, helping with homework, or staying in touch with loved ones. **We're excited to let you know that this summer, S&T will upgrade your internet speed from 200/50 Mbps to 300/75 Mbps. Starting July 1, 2025, the new monthly rate for faster service will be \$69.95.** There's no additional charge and no action needed on your end. With this upgrade, you can enjoy faster downloads, smoother video calls, and quicker uploads across all your devices. *This upgrade applies to residential accounts only.*

Looking for even more speed? Now is the perfect time to make the leap. For a limited time, **you can upgrade to our 1 Gig plan for just \$99.95/month (regularly \$150/month). This plan gives you the power to handle everything your home throws at it, with room to grow.** Whether it's multiple people working remotely, kids streaming or gaming, smart home devices, or all of the above, 1 Gig gives you the bandwidth to do it all without lag, buffering, or slowdowns. ***This special offer is only available through September 30, 2025, for all new and existing customers.***

To get the most out of your upgraded speed, make sure your current router can keep up. If you're already using our Calix GigaSpire with Smart WiFi, you're all set. If not, some third-party routers may limit performance and lack key features. Our GigaSpire router is fully managed and supported by our team. It offers strong coverage, reliable speeds, and built-in tools like ProtectIQ™ for real-time network security and ExperienceIQ™ for customizable parental controls. You can lease it for just \$10/month and enjoy a safer, smarter, and more seamless internet experience.

Thank you for choosing S&T and for trusting us to keep you connected. We are proud to serve our communities and to deliver even more value to customers like you. If you'd like to explore faster plans or have any questions, please give us a call at 1 800 432 8294 or visit www.sttelcom.com.

Sincerely,
Your Local S&T Team
